

BHANU KUMAR DEV

AI/ML Developer & Full-Stack Engineer | Agentic AI

Bhubaneswar, Odisha, India | +91 7903395573 | kumarbhanu818@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

B.Tech Computer Science & Systems Engineering student (CGPA 8.25/10) with hands-on experience across four AI/ML and software internships and multiple hackathon finishes, including a Semi-Finalist placement at the ET-AI Hackathon 2026. Builds full-stack AI applications spanning agentic AI workflows, LLM integration, and production-ready web platforms using React, FastAPI, and modern cloud tooling.

EDUCATION

B.Tech, Computer Science & Systems Engineering — KIIT, Kalinga Institute of Industrial Technology *Aug 2023 – Aug 2027*

CGPA: 8.25 / 10.0 | Bhubaneswar, Odisha

Higher Secondary (12th, Science) — CBSE, B.D. Academy, Amarpur, Banka, Bihar *2020 – 2022*

Percentage: 84%

Secondary (10th) — CBSE, B.D. Academy, Amarpur, Banka, Bihar *2019 – 2020*

Percentage: 93%

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C++, C, SQL, HTML5, CSS3

AI/ML: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, NLP, LLMs, Agentic AI (LangGraph), OpenAI API, Ollama

Frontend: React.js, Tailwind CSS, Bootstrap, Three.js, Framer Motion

Backend & Cloud: Node.js, Express.js, Flask, FastAPI, REST APIs, AWS, Docker, CI/CD, Microservices, Vercel

Databases & Tools: MongoDB, MySQL, PostgreSQL, Firebase, Supabase, Git, GitHub, UiPath (RPA), Linux

EXPERIENCE

AI & ML Intern — Aenexz Tech Pvt. Ltd. *Mar 2026 – May 2026 | Bengaluru (Remote)*

- Developed and deployed AI/ML solutions during an intensive technical internship, covering data processing, algorithmic optimization, and applied model deployment.

Machine Learning Intern — CodeAlpha *May 2025 – Aug 2025 | Remote*

- Built a credit risk scoring model on the UCI German Credit dataset using Logistic Regression and Random Forest, reaching 85% accuracy and 0.89 ROC-AUC.
- Performed feature engineering, preprocessing, and evaluation (Precision, Recall, F1) with Python, Scikit-learn, and Pandas; delivered results via Jupyter Notebook and presentation slides.

Artificial Intelligence Intern — Pinnacle Labs *May 2025 – Jun 2025 | Remote*

- Built an AI Translator App (Python, Streamlit, Deep Translator) for real-time multi-language translation.
- Developed a GenAI Resume Parser (Flask, OpenAI GPT-4, Ollama/Llama 3.2) extracting structured data from PDF resumes via hybrid cloud/local LLMs.
- Prototyped an image classification model using Google Teachable Machine.

C++ & Data Structures Intern — Internship Studio *Jun 2024 – Jul 2024 | Remote*

- Implemented core data structures (arrays, linked lists, stacks, trees, graphs) and solved 100+ algorithmic problems focused on time/space complexity optimization.

RPA & AI Domain Member — USC.KIIT *Oct 2025 – Present | Bhubaneswar*

- Collaborate on Robotic Process Automation and AI initiatives; support technical workshops and hackathons run by the University Students' Council.

KEY PROJECTS

Money Mentor — AI Financial Advisor *(Semi-Finalist, ET-AI Hackathon 2026)*

- Built a full-stack GenAI retirement-planning assistant deployed on Vercel; advanced to semi-finals among competing national teams.

Health Symptom Predictor *(React, FastAPI, ML)*

- AI health app predicting diseases from symptoms with 88% model accuracy and a bilingual (English/Hindi) LLM chatbot for real-time queries.

SurakshaSaathi — Disaster Management Platform *(Smart India Hackathon 2025, Top 50/522)*

- Engineered a real-time monitoring and full-stack training platform with AI/ML-driven alerts, scheduling, and gamified evacuation drills.

ACHIEVEMENTS & CERTIFICATIONS

- Semi-Finalist, ET-AI Hackathon 2026 (The Economic Times); Certificate of Excellence, Eureka Event — Codefest'26, IIT (BHU) Varanasi.
- Internal Finalist, Smart India Hackathon 2025 — top 50 of 522 university teams.
- AWS Academy Graduate — Microservices and CI/CD Pipeline Builder; Agentic AI — 70-Hour Professional Training (ExcelR & KIIT).
